

BPF Series Mulcher

The European designed BULLY BPF Series Mulchers are designed for tractors 60 to 100hp and have a tower that hydraulically side shifts. Like other BULLY Mulchers, a series of removable, height adjustable mulching rakes hold larger prunings (up to Ø 70mm) in the cutting chamber for mulching in vineyards and orchards.

Additionally, the rear of the BPF Mulcher deck can be opened to top pasture or when the operator needs to clear the chamber. This function is beneficial when cutting high volumes of material allowing it to be discharged efficiently, without sacrificing speed.

Complete with a double skinned deck, side shift, a height adjustable rear roller and hammer blades, this mulcher will produce a high-quality finish.

Height adjustable rear roller with scraper and internal bearings

Hammers and internal debris catching lugs

Double skinned deck
